

## Moultrie Middle School's Old Village Historical Marker Walking Tour

### ACTION BASED LEARNING

Research has shown that the brain stores information more readily when learning is paired with physical activity. Moultrie Middle School's Wellness Committee has developed an Old Village Historical Marker Walking Tour that can be used by families, teachers, classes and the community:

- to explore the beautiful Old Village
- to exercise for our health
- to learn and to make us more knowledgeable
- to practice skills learned in school
- to let us enjoy nature, fresh air, and our freedom
- to provide an opportunity for family bonding and friendship building

Begin your walk on Coleman Boulevard at the  
Jasper Green Park in front of the Moultrie

### Historical Markers

Walk west along Coleman Blvd. and stop at the first 3 markers.

1. **Sgt. Jasper/Jasper Green**

#### Mount Pleasant Old Village Historical Marker Walking Tour

#### Practicing Skills Learned at School

- Sequential Ordering: Can you follow the order from point A to point B?
- Math: What is the total walking distance when the extra credit Cove Inlet leg is added? Can you convert that to metric? If you only did one third of the course and turned around and went back to the beginning, what was the distance you walked?
- Literacy: Read the markers. Are there words you don't understand? Talk about vocabulary that you don't understand. Write the words down and look them up when you get home.
- Social Studies: What was the original use for Highway 17? How did Mount Pleasant get its name?
- Science: Pierates Cruze has beautiful camellias. Discuss the factors that allow these plants to survive and grow here for so many years. Notice the clouds overhead. What kind are they? What do they tell you about how the weather is changing today?
